

Open, green land may

become a rare sight

Regarding Bruce Beckman's letter titled "Dist. 99 land could have multiple uses," published June 8 in the Downers Grove Reporter, my response after reading this letter is short and sweet.

District 99 can show this property to the students, so that the students can see what open, green land looks like. This someday may be a rare sight. Please understand that we are not mean. We just want to keep it green.
