Bob, I know as much about this as you do. I read it for the first time in the papers. The Public Works facility on Rt. 53 is the perfect place. No traffic impact. I doubt if there will be a parking lot for 250. That would have to be one BIG facility. I could support this if it were indoors. I don't want to discourage migratory birds and scare deer as well as place people in an audible war zone. I'm sure you want our officers to be the best they can be for your safety. Indoors would be better, don't you agree? Kyle

Bob-

I agree with you regarding the shooting range. This is not the right area for the range.

The impound lot, however, should not generate a lot of traffic or noise. The impounded cars come primarily from municipal police departments. The land is secured by the public works existing security fence.

As always, I would appreciate your feedback.

Thomas F. Bennington, Jr.

Robert,

I am definitely opposed to any type of firing range in or near any forest preserve, especially in this case, when so many residents would be effected by the noise. So my public position is that I unequivocally oppose such a firing range in Woodridge.

Sincerely,

Michael McMahon
