**Subject:** Message sent on behalf of Mayor William F. Murphy and the Village Board of the Village of Woodridge

Thank you for your recent inquiry regarding our review of public smoking limitations. The Mayor and Board discussed this issue at our October 27, 2005 goal setting session and reviewed input that had been provided by the Chamber of Commerce. We concluded that the Village should not now proceed with a local, unilateral smoking ban. However, we are interested in encouraging a County, Regional, or Statewide ban. I have brought the issue to the DuPage Mayors and Managers Conference Board of Directors and I expect that it will be *reviewed in the near future.*

Village staff have also been asked to review measures that could be undertaken locally to promote restaurants that voluntarily go smoke-free. Please contact me if you have any questions about our current activities.
