

# Smoke Free Woodridge

Everyone has the right to breathe clean, smoke-free air, just like the right to eat safe food and drink safe water. Knowing the severe health effects of secondhand smoke, there is no reason to allow smoking in restaurants, bars, bowling alleys, office buildings and all other public places or places of employment. No one should have to breathe toxic chemicals while they work, conduct business, have a meal or a drink, or enjoy an evening out.

**Woodridge Village Board - please make Woodridge Smoke Free!**
